📍 Shakhpur, Bhuj-kutch

OBJECTIVE

Proficient in SQL, Python, and Excel for data extraction, analysis, and reporting. Collaborates with cross-functional teams to support data-driven decisions and strategy development.

EXPERIENCE

- Analysed large datasets to spot trends, anomalies, and improvement opportunities.
- Prepared comprehensive analysis reports summarising findings and recommending strategic actions.
- Designed and implemented dashboards and reports to visualise data for easy interpretation by non-technical users.
- Managed data extraction, transformation, and loading processes ensuring data integrity across systems.
- Collaborated with cross-functional teams to define data requirements and deliver actionable insights.
- Engaged with clients to clarify data analysis needs and provided tailored solutions.
- Monitored data security protocols to protect sensitive information from unauthorised access.
